

Byggvarubedömningen's Application form

Byggvarubedömningen's Application form meet the requirements regarding chemical content in coherence with eBVD2015.

dline Hook

1. General information

| Supplier information | |
|--|---------------|
| Supplier | D line AS |
| Contact person at Supplier | Finn Pedersen |
| E-mail address to contact person | ftp@dline.com |
| Phone number to contact person | 24981800 |
| Manufacturer (if other than supplier) | D line AS |
| Social responsibility in the Supply Chain | |
| Have your company or organisation relevant certificates regarding Social responsibility? | No |
| Have your company or organisation a written Policy or a Code of conduct handling Social responsibility in supply chain? | No |
| Is someone in you company's management team appointed responsible for work and routines regarding Social responsibility? | Yes |
| Is there a routine within your company or organisation how to take action in supply chain regarding Social responsibility? | No |

2. Product information

| Product | |
|--|--|
| Product name | dline Hook |
| City and Country for production of product | Kaisiadorys Lithuania |
| Country for raw material recovery | Germany |
| Product description | Knud Holscher collection, coat hook, Ø25x21mm, bush, self-tapping screws included. Manufactured in the highest quality marine grade, AISI 316 stainless steel, protecting against high levels of corrosion. 20-year warranty |
| BSAB | PU - Sanitetsenheter och sanitetsutrustningar |
| BK04-code | 20198 Sanitet tillbehör |

| Type of product | |
|---|------------------------------|
| Type of product | Article |
| Area of use | Indoor/Sanitary room/Outdoor |
| Has a Declaration of performance, in accordance with European Construction Products Regulation (EU) nr 305/2011, been prepared for the product? | No |

3. Declaration of contents

| Public substance | | | | | | |
|--|---|--|-----------|---|---------|--|
| Substance | CAS / EC / alloy number | Total weight-% of the substance in the product | Component | Weight-% of the substance in the component/raw material | Comment | Function of the substance in the product |
| Rostfritt stål AISI 316L, Ni ≤13%, Bedömning på legeringsnivå | CAS: 12597-68-1 EC: 603-108-1 Alloy number: AISI 316L | x = 100 | | | None | All |

| Candidate List | |
|--|------------|
| Does the product or any of its subcomponents contain so called Substances of Very High Concern (SVHC), which are included in the Candidate List at a concentration ≥0.1 weight%? | No |
| State the date (year, month, day) for control of the Candidate List | 2021-11-11 |

| Nanomaterials | |
|--|----|
| Does the product contain any nanomaterial that has been purposefully added to achieve a specific function? | No |

| Per- and polyfluoroalkyl substances (PFAS) | |
|--|----|
| Does the product contain any per- and polyfluoroalkyl substances (PFAS) that has been purposefully added to achieve a specific function? | No |

4. Included materials and raw materials

| Included materials and raw materials | |
|---|-----|
| Does the product contain recycled material? | Yes |

| Recycled materials | | | | | |
|--|---|---|--|--|---------|
| Name of material / CAS / EC / alloy number | Name of component where recycled material is included | Total amount (weight-%) of recycled material in the product | Amount of recycled material that has not reached consumer level, such as production waste, etc, i.e pre-consumer. (Weight-%) | Amount of recycled material that has reached consumer level, i.e post-consumer. (Weight-%) | Comment |
| Rostfritt stål AISI 316L, Ni ≤13%, Bedömning på legeringsnivå | Aisi 316 | x = 100 | x = 100 | x = 100 | |

5. Production phase

| Questions related to production | |
|--|----|
| Has an Environmental Product Declaration (EPD) according to ISO 14025 and EN 15804 (or equivalent for other product groups) been prepared for the product? | No |
| Has another type of environmental product declaration been prepared? | No |
| Has an active choice been made, regarding the electricity supplier, to promote electricity production from renewable energy sources? | No |

6. Describe the management of packaging for distribution of the product

| Describe packaging of product when distributed | |
|---|-----------|
| Packaging material | Cardboard |
| Specify the packaging material used and which system of producer responsibility for packaging the supplier is affiliated to | dline |
| State whether any system for taking back or recycling packaging or any other specific return system is used | |
| Enter the proportion (%) of recycled material, if any, included in the packaging | 100% |
| Comment | |

7. Construction and usage phase

| Construction and usage phase | |
|---|----------|
| Estimated technical life for the product | 20 years |
| Are there any special requirements such as storage conditions for the product during storage? | No |
| Are there any special requirements for adjacent building products because of this product? | No |

8. Waste handling

| Waste management of product | |
|---|------|
| Does the product require special measures to protect health and the environment in conjunction with demolition/dismantling? | No |
| Is it possible to re-use all or parts of the product? (Can the product be reused within the product's expected lifetime?) | Yes |
| Please describe | 100% |
| Is material recycling possible for all or parts of the product when it becomes waste? | Yes |
| Please describe | |
| Is energy recycling possible for all or parts of the product when it becomes waste? | No |
| Please describe | |
| Does the supplier have any restrictions and recommendations for reuse, material- or energy recycling or disposal? | No |
| Please describe | |
| When the supplied product becomes waste, is it classified as hazardous waste? | No |
| Please specify waste codes for non-hazardous waste | |
| Is the product covered by the WEEE-directive 2012/19/EU (Swedish ordinance (2014:1075) on Producer Responsibility for electrical and electronic products when it becomes waste? | No |
| Please describe | |

9. Indoor environment

| Indoor environment | |
|---|--|
| | The product is resistant to microbial growth (fungi and algae) |
| Has the product a critical moisture condition? | No |
| Has emission data been produced for volatile organic compounds? | No |

Please state any motivation for why emission data for volatile organic compounds is not relevant for the product:

100% Stainless steel

| Files | |
|----------|-----------------|
| Name | Document type |
| Hook.PNG | Product picture |

| Item specification | | | | | |
|--------------------|-------------|------|-------------------|------------|----------|
| Item name | Item number | GTIN | EAN | RSK-number | E-number |
| Coat hook | | | 5706847072 631 | | |

Certificate of substance content and concentrations

It is hereby certified for the product that

- ☐ Concentrations of the constituent substances have been reported down to a percentage by weight (wt%) of 0,01.
(This implies a complete declaration of contents in which all substances present in concentrations of $\geq 0,01$ wt% have been reported.)
Substances that are subject to specific concentration limits $< 0,01$ wt%: These substances are reported if they occur in concentrations up to 10 times lower than their specific concentration limit. (This means that if a substance's specific concentration limit is 0,0015 wt%, concentrations $\geq 0,00015$ wt% are to be reported.)
Actively added or contamination of mercury has been reported regardless of concentration.
Cadmium is reported in cases of $\geq 0,001$ wt%.
- ☒ Concentrations of the constituent substances have been reported down to 0,1 wt%.
(This implies a complete declaration of contents in which all substances of concentrations $\geq 0,1$ wt% have been reported.)
Substances that are subject to specific concentration limits $< 0,1$ wt% have been reported when they occur. (This means that if a substance's specific concentration limit is 0,0015 wt%, concentrations $\geq 0,0015$ wt% are to be reported.)
-Actively added or contamination of mercury has been reported regardless of concentration.
-Cadmium is reported in cases of $\geq 0,01$ wt%.
- ☐ None of the above alternatives but I have followed the instructions for Declaration of content, Bygghälsöversynens reporting requirements 2019-1 (Annex 1. Table 1)

I have followed Bygghälsöversynens reporting requirements 2019-1 (Annex 1. Table 1) equivalent to:

- ☐ Accepted level
☐ Recommended level

Specifically indicated substances

Does the product contain any of the below listed substances or has any of the below listed substances been added during production phase or formed through reactions between the substances in the product?

Substance group/Substance

Arsenic and its compounds

Brominated flame retardants

Per- and polyfluoroalkyl substances (PFAS)

Organotin compounds

Biocidal product applied on products (surface treatments) to provide a disinfectant or anti-bacterial effect.

Arsenic, or arsenic compounds, are not permitted to be added to the product. Contamination of used raw materials is not permitted to exceed 10 mg/kg. The concentration limit is set based on regulatory requirements for soil quality to ensure that products assessed as Recommended do not raise background concentrations through their use or disposal (for example; sludge from sewage treatment works Swedish Ordinance 1998:944, Section 20). The same concentration limits are found in the Swedish Environmental Protection Agency's general guidelines for sensitive land use. <https://www.naturvardsverket.se/Stod-i-miljoarbetet/Vagledningar/Forenaden-omraden/Riktvarde-for-forenaden-mark/>

- ☐ Yes
☒ No

Verification

- ☒ I Finn Pedersen hereby certify that the above data given in section Certificate of substance content and concentrations, is correct to my best knowledge.
